**STORY OF THE WRECK.**  
The passenger train was made up of three coaches and a Pullman. There was no baggage car, the front coach being next to the tender. When the train met the heavy freight train pushed the passenger engine back into the first coach. The tender literally cut the coach in two and never stopped until it had ploughed itself half way through the car and its passengers, killing those in the forward end instantly and mangle all within reach in a most horrible manner. Many of the dead were almost unrecognizable. The next two coaches were badly damaged, but the passengers fared better, all except a few escaping with slight injuries. The Pullman remained upright, none of its occupants being hurt.

It is said the freight engineer was responsible for the wreck, having forgotten his orders to take the side track at Knob Knoster, just east of Warrensburg. The trains met on a sharp curve, both running at a good rate of speed. The impact of the collision was terrific and sleeping passengers were hurled in every direction. Relief trains carrying physicians were sent out as quickly as possible from surrounding towns. It was some time before the dead and injured could be extricated from the debris.

Clamped in each others arms they drank the contents of an ounce bottle of strychnine. Death came before medical aid could be summoned. Reading of trashy novels is said to have led to the suicides.

**SHOT HIMSELF.**  
New York, Oct. 10.—Frank DePeyer, member of several prominent clubs, to day shot and killed himself. A suit brought by him against two other clubmen alleging slander and demanding \$100,000 damages was to have come up in court to day. The suits were against Alfred H. Bond, president of the Calumet club, and George A. Cormack, secretary of the New York Yacht club. Hall alleged both men in conversation with others had accused him of disgraceful practices while he was a member of the Calumet club. He denied the truth of the charges.

**COMMERCE INVESTIGATION.**  
Chicago, Oct. 10.—The interstate commerce commission to day began investigation of the private car question and heard the testimony of a number of witnesses. The movement to investigate the private car company situation was originally begun by the National League of Commerce Merchants at Louisville a year ago. **AT TRINITY CHURCH.**  
Rev. William Mitchell, of St. Paul, Minn., filled the pulpit at the Trinity Episcopal church Sunday and preached an able sermon, taking as his theme "Optimism and Pessimism," taking his text from the Gospel of St. John, viii:12-13, a part of the story of the feeding of the five thousand.

The speaker briefly sketched the scene of the miracle, told of the testing of Philip and Andrew by the Master, who asked that the people be fed. He drew many lessons in an interesting way from the lives of the several men and showed that optimism should hold the same relation to the spiritual life as it does to the temporal, for Christ was an optimist. The gentleman spoke without notes and was very forceful, eloquent and direct in his remarks.

Mr. Mitchell is a native of Kendallville, Ind. He graduated from Harvard university in 1888 and from the Cambridge Episcopal Theological school in 1892. His first work was in his native town, where he was instrumental in organizing and building a church. He was next rector of St. Luke's church at Terre Haute, Ind., for five years and from there went to Redwood Falls, Minn., where he was rector of the Church of the Holy Communion for two years, and for the next two years he has been stationed in St. Paul.

Resides being a preacher of ability Mr. Mitchell is the author of a number of essays, among which are "Phillips Brooks—the Man, the Preacher and the Churchman," "The Theology of Sacraments," "The Spirit of Modern Theology," and a number of magazine articles. He has been president of the Terre Haute Literary club, president of the ministers' association, member of the board of associated charities, and has always been much interested in Y. M. C. A. work. He is a married man and has one child—a daughter.

Mr. Mitchell made a very favorable impression upon the Trinity congregation and his sermon was the subject of many favorable remarks yesterday from those who had the pleasure of hearing him. During his brief stay here he has gained many warm friends.

### KUROPATKIN ON OFFENSIVE IS MARCHING HIS ARMY AGAINST JAPANESE

**Battle Between Contending  
Forces in Manchuria Only a  
Few Days Ahead—Advice  
From Front Meagre.**

St. Petersburg, Oct. 10.—The battle upon which the fate of this year's campaign in Manchuria depends seems only a few days ahead. Advice from the front is meagre. All that is positively known of the battle is that Kuropatkin has cast the die, faced his army about and is marching resolutely against the enemy, as if resolved to do or die.

According to unofficial reports Field Marshal Oyama at the first signs of Kuropatkin taking the offensive began drawing in his line and concentrating upon fortified positions north of Liao Yang. According to the latest reports from Mukden, dated 6 o'clock to night, the Japanese outposts are being driven in all along the line.

The strategy of the forward movement will be concealed as were preparations for the advance, so that all surprises are to guess work. Little light has been thrown upon considerations which led Kuropatkin suddenly to assume the offensive; but no word is heard at the war office intimating that the course savor of rashness. Officers of the general staff, while not underestimating the heavy task and severe sacrifices involved in assuming the offensive, nevertheless express absolute confidence Kuropatkin has found a weak point in the Japanese armor. Different explanations abound as to the reason for making the forward movement at this time. The advance is attributed to a realization by Kuropatkin of the difficulty the Japanese have encountered in making good their losses at Liao Yang and replenishing their supplies and ammunition, or possibly to drawing off a portion of the Japanese troops to reinforce General Nogi in a desperate endeavor to end the siege at Port Arthur, whatever the explanation, it is apparent from the hasty manner in which the Japanese withdrew before the first show of Russian strength that their recent operations preparations for advance were largely a bluff. The best opinion here is that the impending battle is likely to develop with startling rapidity. It is reported the Japanese have abandoned Shinchan, Salmatsze and Melchoulin, east of Liao Yang.

**RUSSIA AND GERMANY.**  
St. Petersburg, Oct. 10.—Rumor of a secret understanding between Russia and Germany covering the war in the far east has again been revived. According to the latest version Germany gives certain guarantees to the czar regarding the German frontier, which will enable Russia to withdraw troops from garrisons in Russian Poland and dispatch them to the far east, besides agreeing to support Russia in peace negotiations at the end of the war. Germany's compensation in addition to concessions in commercial treaties already negotiated is support from Russia in attempt to incorporate The Netherlands in a German confederation in event of the death of Queen Wilhelmina without a direct heir.

**WAR REPORTS.**  
St. Petersburg, Oct. 10.—The capture of Bentapsatz, which is strongly fortified, and where Kuropatkin commanded in person, is officially confirmed. Fighting was not severe. The Japanese retired on finding themselves outflanked. The Russian losses were only twenty-five killed or wounded, including an officer.

Mukden, Oct. 10.—The Japanese main army is retiring southward. Its right wing has gone thirty miles. The Japanese are giving up not only positions which they occupied after the battle of Liao Yang, but places they had previously taken.

Chofoo, Oct. 10.—The Russian agent here announces authoritatively that there has been no fighting of importance at Port Arthur since Sept. 13-23. The night of Oct. 6th the Japanese landed a force from Liao Yang and the Russians retired in the face of superior numbers. The next day, however, the Japanese were driven off by artillery fire, a number of guns which they had mounted being destroyed.

St. Petersburg, Oct. 10.—A dispatch from the Russian headquarters at Mukden to day says the land blockade at Port Arthur has been weakened, that the Japanese at Liao Yang have been reinforced by 15,000 men by way of New Chang and that they expect three additional divisions in a few days.

Royal, Russia, Oct. 10.—Emperor Nicholas to day inspected the torpedo flotilla that are to accompany the Baltic fleet to the far east. His majesty made a speech to the crews, thanking them for their past services and wishing them a pleasant voyage.

St. Petersburg, Oct. 10.—After the farewell review of the Baltic fleet at Revel to day by Emperor Nicholas the squadron sailed for Libau, from whence, it is declared, it will within a few days weigh anchor for the long voyage to the Pacific.

### THE W. C. T. U. State Convention Closed After Five Days Session—Officers Elected.

Carbondale, Ill., Oct. 10.—The annual meeting of the Illinois Women's Christian Temperance union to day closed a session of five days at Murphysboro. The diamond medal was won by Allen Atchinson, of Upper Alton, the only male contestant. Officers were elected:

Vice President—Mrs. Lucile B. Long, Peoria.  
Corresponding Secretary—Mrs. Minnie B. Harnung, Evanson.

**STRENGTH OF ARMIES.**  
St. Petersburg, Oct. 10.—According to estimates of the war office, Dymna's total strength is about 200,000, of which 150,000 are posted between the Hun river to the west and Bentapsatz, eastward, the remainder being held in reserve at Liao Yang. Kuropatkin is possessed of nine corps, giving him perhaps a slight superiority in numbers. With Kuropatkin acting on the offensive reinforcements will be pushed forward with all possible speed.

**FIRE LOSSES.**  
St. Louis, Oct. 10.—As the result of a fire which to day completely destroyed an amusement resort near the world's fair grounds and communicated to the roof of Forest Park hotel 350 guests in the latter were aroused from sleep and hurried from the building. Sparks also fell in the live-stock forum of the world's fair and it was only by prompt work firemen succeeded in preventing a general conflagration.

**NO TRUTH IN CHARGES.**  
Chicago, Oct. 10.—Charges involving money matters affecting Rev. H. S. Cox, of Albuquerque, N. **INCREASE FOR MINERS.**  
Wilkesbarre, Pa., Oct. 10.—Commissioner Neill has informed coal companies that he finds the average price of coal at Lake water during September was \$4.85. On this basis he fixes a 5 per cent increase for miners over the April basis, according to the sliding scale adopted by the strike commission. This is 2 per cent more than was paid in August.

London, Oct. 10.—The Post's Shanghai correspondent says it is stated Lieutenant General Strossel has reported that unless he is relieved before December he must surrender.

### ROOSEVELT AND PARKER COMPARED BY POPULIST LEADER

**Watson Says All Know Where  
Roosevelt Is, While Parker  
Wears a Mask—LaFollette  
Committee Recognized.**

Chicago, Oct. 10.—Thomas E. Watson, Populist candidate for president, addressed a large crowd here to night. He said more energy was displayed in securing nominations than securing elections, and that this was particularly the case with Parker's campaign. He said this was due to corporate influence which, he said, controls the Republican party and desires to perpetuate that system. To do this they must, if possible, secure control of the Democratic organization, and this they did, Watson alleged, by purchasing the delegates who nominated Parker. His election would mean continued existence of the system, just as the election of Roosevelt would.

Continuing, he declared all know where Roosevelt is—he is the open enemy; Parker is the enemy in ambush. "The foe who wears a mask." He compared the two leading parties set length in effort to show their principles are practically the same.

**NO CONFLICT.**  
New York, Oct. 10.—It was stated at the Republican national headquarters to day that there is no conflict of authority about the Wisconsin Republican organization. As soon as the supreme court decision was announced in favor of the LaFollette electoral ticket Chairman Cortelyou directed the western national headquarters to recognize the LaFollette committee as the regular Republican organization.

Milwaukee, Oct. 10.—Considerable discussion was indulged in to day over the probable outcome of the political situation existing between the two Republican factions in Wisconsin. It seems to be the general opinion that when the executive committee of the state meets to tomorrow or Wednesday definite action will be taken regarding their ticket. Leading stalwarts expressed belief to day it would be withdrawn. Senators Spooner and Quarles stated they had no more appointments to make speeches in the state at present.

Chicago, Oct. 10.—James A. Tawney, director the speakers' bureau at the Republican national committee headquarters, to night sent a message to the chairman of the LaFollette state central committee of Wisconsin, saying: "The Republican national committee expects to assign speakers to your state through your committee from this time on to the end of the campaign; the same as we assign speakers to other states through regular Republican organizations." Tawney then invited a conference as to speakers the Wisconsin committee may want in that state. Chairman Cannon of the LaFollette committee said to night it was not yet absolutely certain that Senator Fairbanks would speak in Milwaukee this week. He estimated he was waiting to hear further from the national committee before making definite arrangements.

**DELAWARE REPUBLICANS.**

Many uniformed clubs from the surrounding towns held a parade and later escorted the secretary to the theatre.

**SENATOR FAIRBANKS.**  
Omaha, Oct. 10.—Senator Fairbanks addressed a large audience here to night in addition to discussing trusts Fairbanks touched upon the tariff question and discussed other issues. He said the Dingley law had had the effect of opening many factories and of spreading prosperity from end of the country to the other. He outlined the policy of the Republican party with reference to the Panama canal, claiming for that party all credit for what has been done in the interest of that enterprise.

Congressman Smith of Iowa followed in a general speech in support of the Republican ticket.

Fairbanks spent the night here and will tomorrow begin a two days' speaking tour of Iowa.

During the day Fairbanks made speeches at Kearney, Lexington, Central City, Grand Island, Columbus and Fremont.

The contest was a terrific one. Up to the fourth round McGovern had a shunt the better of it. In the fourth Hanson, seeing an opening, sent a left hook hard on the chin and the former champion went down for the count and to many spectators it looked as though McGovern was out. Hanson, however, threw a disconcerting blow to the winds and tried to put in a finishing blow. He fought so recklessly, however, that if proved his downfall. **PUNSTON'S REPORT.**  
Washington, Oct. 10.—Brigadier General Punston, commanding the department of the Columbia, in his annual report says that additional observation and conversation with officers confirms him in views expressed in his last report that there should be a substantial increase in the pay of enlisted men of the army. This report says:

"There can be scarcely a doubt that such action would bring into the army a vastly superior body of men who would remain in the service. It is doubtful if an increase over the present rates of pay of 50 per cent for noncommissioned officers and 30 per cent for privates would be more expensive than under the present rates, when so much time and money are wasted in trying to make soldiers out of an inferior class of men, who constitute at least half the rank and file of the army to day."

**BUILDING REPORT.**  
Washington, Oct. 10.—James Knox Taylor, supervising architect of the treasury, in his annual report says that during the past year fifteen entirely new buildings and seven extensions of old buildings were completed and occupied. CORRESPONDENCE

What a Jacksonville Citizen Thought of a Request for Funds to Aid Democratic Campaign.

A well known citizen of this city received the following letter, and his answer is appended:

"Democratic National Committee, Office of the Treasurer, New York, Oct. 6.—The Democratic party, at its national convention in St. Louis, nominated Alton B. Parker, of New York, for president; and Henry G. Davis, of West Virginia, for vice president; and adopted a platform of principles.

"The Democratic party stands in this contest for economy, and against extravagance; for equal opportunities and against special privileges; for a government of law, as against one of individual caprice, and for the rule of the people instead of monopolies.

"There are about 14,000,000 legal voters in this country, and to intelligently present the issues of the campaign and the records of the candidates to this vast electorate requires a very large sum of money.

"The Democratic party has no industrial favorites from whom, either by promises or threats it can draw campaign subscriptions; but must rely for necessary funds upon patriotic citizens who believe in a government of law under the constitution honestly and economically administered.

"From all such citizens, I request such contributions as they are able and willing to make, for which prompt personal acknowledgment will be sent.

"All remittances should be made to my order as treasurer, George Foster Peabody, 1 West 34th Street, New York City."

Jacksonville, Ill., Oct. 8.—Mr. Geo. F. Peabody, No. 1 West 34th Street, New York. Dear Sir: I have your favor of the 6th asking me for funds for the Democratic national committee. You must regard me as densely ignorant or deplorably blind to facts to make such a request.

"You say the Democratic party stands for economy. Its record will hardly bear out such an assertion. The only time it has had the reins of power in this state in the last forty years was from 1893 to 1897, and the history of that period is enough to make any citizen blush for shame.

"The treasury was taken full and left empty; corruption abounded and one of the most prominent and trusted officials was sent to the penitentiary for embezzlement, while others guilty escaped. Under James Buchanan in a time of profound peace, the national debt was trebled. Cleveland's second administration had to issue bonds to keep things going. True, we are having some extra expenditure now. The Panama canal is costly; would you stop work on it? Rural free mail delivery is expensive; would you stop work on it? The administration of the Philippines is taking much money; would you leave them to shift for themselves? To maintain our position properly among nations war ships are indispensable; would you stop building them?

"You say the Democratic party stands for equal opportunities. You shed barrels of crocodile tears over the oppressed Filipinos, who you know are to day in the most fortunate circumstances of their whole existence, while your party deliberately disfranchises the voters of twelve millions of colored people, and Senator Tillman says it is the intention to keep it up right along. Do you call that equal opportunities? I would like to have the names of a few persons who have been mentioned in any bill for congress as the recipients of special privileges. I am not aware of any law which grants privileges to one man above another. All have equal rights to engage in any business they choose, as far as I know.

"You say the Democratic party stands for a government of law as against one of individual caprice. By this I presume you mean to criticize the president. The principal 'caprices' I now recall are a trifle peculiar. He capriciously sent war ships to demand satisfaction for the insult to our representative at Beirut, Syria. He brought the Turkish government to time for burning the property of American missionaries. He used his great offices for the settlement of the great Pennsylvania coal strike. He prepared the way for the Panama canal after the country had been vainly striving, legislating and prospecting for years to accomplish the feat. He courageously overthrew the greatest trust known to the country, incuring the animosity of the largest financiers of the land. He has appointed the very best men in the land to places of the greatest importance, without regard to their political activity or predilections. He has defied the rages and political managers who would try to control him, and has administered the law as he found it for the best interests of the whole people. These are 'caprices' that suit most people very well. He sent word to the sultan of Morocco to produce the captured American citizen alive or the outlaw dead; do you find fault with him for it? Certainly we could not expect the sage of Esopus, who has been so singularly devoid of opinions the past year, to do any such things if he were in power. He would be like the man who was a theoretical farmer, and while he was hunting for his book to find out whether he should

"You claim to be for the rule of  
the people against monopolies. In this  
case, while I do not wish to use un-  
gentlemanly language, it is hard to  
accord you honesty or sincerity. Mr.  
Bryan says the nomination of Judge  
Parker virtually nullifies the anti-  
trust plank of the Democratic plat-  
form. The New York Times, one of  
Judge Parker's strongest advocates,  
says that James J. Hill, president of  
the Great Northern railroad, a party  
to the Northern Securities merger,  
which President Roosevelt and his at-  
torney general successfully combated  
in the courts, is especially bitter  
against President Roosevelt and  
would contribute from half a million  
to a million dollars to the Democratic  
campaign to insure victory. It is no-  
torious that the trusts and monopol-  
ies are for Parker, for they know  
with whom they have to deal if Roose-  
velt should be elected again. In view  
of these facts, do you expect any sane,  
intelligent person to take seriously  
your claim that the Democratic party  
is for the rule of the people instead  
of monopolies?

"Certainly, the patriotic people who  
believe in a government of law under  
the constitution will prefer President  
Roosevelt."

## HOW TO MARK A BALLOT.

The Australian ballot has been so  
long in use that one would suppose all  
would know how to mark it, but still  
a word of caution may be wise. The  
best way is to make a mark in the  
ring opposite the word Republican  
and let it go at that, for that will  
mean a vote for the straight Republi-  
can ticket. Any person who wants  
to vote for some persons on different  
tickets should be very careful. There  
are two ways to accomplish this:  
First, make a mark in the small  
square opposite the name preferred,  
being careful to make a mark oppo-  
site the name of each presidential  
elector on the ticket preferred. An-  
other way is to make a mark in the  
ring opposite the name of a party  
which contains a number of persons  
for whom a vote is to be cast. Then  
select the names preferred on any  
other ticket and make a mark in the  
squares opposite their respective  
names. Thus all the first named tick-  
et will be voted for, except the names  
against which marks have been made  
in other tickets.

## MATRIMONIAL

RATLIFF-WALTER.

On Tuesday evening, Sept. 27, at 8  
o'clock, at the beautiful home of Mrs.  
Cassandra B. Barrows, in San Ber-  
nardino, Cal., occurred the marriage of  
her niece, Miss Mary Walter, to  
Richard Pleasant Ratliff. The cere-  
mony was performed in the front par-  
lor, which had been beautifully deco-  
rated in green and white for the oc-  
casion. Rev. E. K. Holden, pastor of  
the Congregational church officiated.  
As the moon was rising from behind  
the mountains of the San Bernardino  
range, behind which the city is situated,  
the brief and solemn promises were  
made beneath a canopy of green and  
white. The ceremony was witnessed  
only by relatives, and a few intimate  
friends.

The bride was most becomingly  
dressed in a delicate shade of voile,  
with lace trimmings, and carried a  
large bouquet of carnations. After  
congratulations all sat down to a de-  
licious wedding supper.

The bride is a niece of Mrs. Bar-  
rows, with whom she has made her  
home for the past two years. She was  
the recipient of many beautiful pres-  
ents, which speak of the esteem in  
which she is held by her many friends.

Both bride and groom are natives  
of this county. The bride was brought  
up in the Ebenezer neighborhood,  
where she has a host of friends.

The groom had the advantage of  
an equally good community—Joy  
Prairie. The ideals there acquired  
during his boyhood days have con-  
tinually been his standard in dealing  
with his fellow men.

Mr. and Mrs. Ratliff will reside at  
the corner of Tenth and B streets,  
San Bernardino.

BLACK-BASSETT.  
Frank Black and Miss Mattie Bas-  
sett, both of this city, were united in  
marriage Sunday afternoon at 1:30  
o'clock, at the home of the bride's  
parents on South Fayette street, Rev.  
E. M. Harl's officiating. Both are  
highly respected young colored peo-  
ple, who will have the best wishes of  
their many friends.

WHITES-THALMAN.  
Miss Emma Thalman and Preston  
L. Whites, of St. Louis, were mar-  
ried recently at the home of the bride  
in Patoka. The bride was formerly a  
resident of this city and well known  
to many here. The groom is an em-  
ployee of the St. Louis Transit com-  
pany.

AN INTERIOR VIEW OF THE GREAT MUNDY WILD ANIMAL SHOW AT THE CARNIVAL. THE SEATS ARE PLENTIFUL AND FREE TO ALL PATRONS.

## GALA WEEK HAS BEGUN

Eagles' Fall Festival Opened Last Evening—The Mundy Shows—An Immense Aggregation.

The great Eagles' Fall Festival began Monday evening and everything points to a grand success.

The various attractions of the Mundy shows were opened last evening for the first performance and a large number availed themselves of the opportunity of seeing and judging of the merits of the different features before the crowds which are expected to arrive in force. Those who saw the shows last evening appeared to be of the same opinion—that there is nothing in the shows here under the management of Col. P. J. Mundy to which the least exception could be taken. There is probably not another show of the kind on the road so free from objectionable features. In this respect especially are the shows all that they have been advertised.

The leading attraction, and the one in which the largest amount of capital is invested, perhaps, is the wild animal show. The company carries a large number of fine animals—lions, tigers, pumas, leopards and a hyena. All are more wild than the usual trained animals and are forced to go through their performances perfectly, apparently through sheer force of will of the trainers. The trained hyena is said to be the only trained animal of its kind in the world. Among the list should be mentioned the baby lions, of which there are eight, all born in captivity and ranging from two weeks to six months of age. They attracted a great deal of attention at the performance last evening.

The trained wild animal exhibition takes place in a steel arena. The first act comprises different formations by lions, tigers, leopards, pumas, hyenas and jaguars. They are all beautiful creatures, but possess a large share of their native savagery. The lady who puts them through their tricks is called upon to exert every degree of patience, firmness and quickness in handling them. The second act is a single handed fight between a man and an untamed lion. The man leaps into the cage, firing a revolver to confuse the savage brute, and after a few rounds of the cage, makes his escape in safety.

The third act is the prize den of

larger-deanMkulyh shrdluctaoieho lions. They are magnificent brutes and are handled perfectly. Two lions and four lionesses take part in this performance. Gatti's Italian band accompanies this attraction and furnishes music during the performance. Taken altogether it is without doubt the best attraction of its kind ever shown here and would be a credit to any organization.

The next attraction to the north is the Port Arthur show. It consists of moving pictures of the Russians and Japs engaged in conflict and has some very spectacular effects.

The next is the steeplechase. A new feature of this arrangement, is the "lovers' tub," a contrivance that revolves upon an axle, instead of having the up-and-down motion of the other seats. The whole machine is gorgeously trimmed and presents an attractive appearance.

The "foolish house" is probably the greatest laugh producer of the company. Numerous mirrors of concave, convex and other curves, give exceedingly grotesque caricatures of the persons standing in front of them and the effect is truly marvelous and laughable in the extreme.

The "Lotta" show attracted a good crowd all evening. The program is varied, consisting of illustrated songs, kaleidoscopic dances and moving pictures. The bill is a good one and of such a varied character as to be interesting.

The Creation and train robbery occupies a large tent on the west side of the square. It also attracted a good share of the patronage and pleased the crowds.

The gondolas on the northwest corner of the square are not yet in working order. The structure is very similar to the one on the pike at the world's fair and is richly decorated.

At the west entrance of the park is Nanna, the midget princess. She is a mere doll in appearance and goes through a number of songs and dances and other pleasing performances. At the conclusion of each performance she holds a reception and converses freely with all who wish to meet her. She speaks several languages with the greatest ease and fluency.

The Venetian glass blowers also have a very creditable exhibition and the "penny arcade" held a good crowd during the afternoon and evening.

The free attractions will be ready to day and promise to be highly sensational in character. Among them may be mentioned "looping the gap," the high dive, the slide for life and leaping the fiery chasm. The Italian

band with the animal show furnished music on the streets during the day. If the interest manifested in the first evening's performance is to be taken as a sign, the Eagles' carnival is to be a splendid success. The local lodge has spared no effort to make the week a gala one and their good judgment in securing the Mundy shows for the occasion is deserving of the highest praise, for the company in every particular surpasses anything which has heretofore appeared in this city on a similar occasion. All the attractions are first class, and Colonel Mundy's motto, "Morality," has

AN ACT IN THE PERFORMING WILD ANIMAL SHOW AT THE CARNIVAL, KNOWN AS "THE FIGHT FOR LIFE," A BATTLE ROYAL BETWEEN A MAN AND A MONSTER LION WITHIN THE CONFINES OF A TWENTY-FOOT CAGE.

been strictly observed in every particular. So far as appeared last evening there is nothing shown which could not be viewed by the most strict. And in addition to this all connected with the shows are quiet, orderly and well behaved.

To day it is expected that everything will be in working order, and the free attractions will be produced in full. This, the second day, has been dedicated to the children, and will be known as children's day. Wednesday will be old settlers' day, and the queen's contest will be decided.

Thursday will be Eagles' and fraternal day; Friday will be party day and Jacksonville day, and Saturday will be The Mundy shows carry an equipment similar to that carried by the big circuses. Their paraphernalia fills a train of nineteen cars and is complete in all details. A small army of employees are carried, and also a full force of advertising men. All are skilled men in their lines and many draw large salaries.

Colonel Mundy is the owner of all the shows under his name and each is in charge of a manager, who devotes his time to the interests of his show.

The last engagement of the company was at Bloomington, where they showed under the auspices of the Woodmen. They came from that city to Jacksonville via the C. P. & St. L., arriving here some time before midnight Sunday. The work of erecting the tents was not begun until Monday morning, but nearly everything was in readiness for the opening at 7:30 o'clock. All the shows are fitted with show fronts, some of which are very gorgeous. They are brilliantly illuminated with numerous electric lights and make a great display.

### ACCIDENT ENROUTE

Two Employees of Mundy Shows Injured—Two Wagons Also Damaged.

The Mundy Carnival company met with hard luck on their way to this city Sunday and after their arrival. The train was stopped on the trestle north of Chandlerville for the engine to take water, and in coupling up the engine bumped it with such force that a number of the wagons were thrown from their blocks and one of the showmen was precipitated to the water forty feet below. He was somewhat bruised, but luckily escaped serious injury.

The work of re-blocking the wagons was done under great difficulties, as the train was on the trestle, and it is probable that some were missed, as upon the arrival of the train here, when it was again bumped, two wagons were thrown from the train. Two of the employees of the company, Louis Mathais, of Bloomington, and John McKay, of South Bend, Ind., were injured. Mathais joined the show at Bloomington last week, and was connected with the scenic railway. He was injured about the head and one arm. McKay, a boy in the employ of the animal show, was badly bruised. The injured men were taken to Passavant hospital, where they were attended by Dr. C. E. Black.

The large organ used on the gondola attraction, was thrown from the top of one of the wagons to the ground and was smashed to pieces.

Henry L. Childs, claim agent of the C. P. & St. L., was in the city yesterday and adjusted the damages with the injured men.

## CLEANLY WOMAN.

## Erroneously Thinks by Scouring Her

Scalp That She Cures Dandruff.

Cleanly woman has an erroneous idea that by scouring the scalp, which removes the dandruff scales, she is curing the dandruff. She may wash her scalp every day, and yet have dandruff her life long, accompanied by falling hair, too. The only way in the world to cure dandruff is to kill the dandruff germ, and there is no hair preparation that will do that. But Newbro's Herpicide. Herpicide by killing the dandruff germ, leaves the hair free to grow as healthy. Nature intended. Destroy the cause you remove the effect. Kill the dandruff germ with Herpicide. Sold by leading druggists. Send for stamps for sample to The Herpicide Co., Detroit, Mich.

## INHERITED SCROFULA

When a child I had a very severe attack of Diphtheria, which came near proving fatal. Upon recovery the glands of the neck were very much enlarged, and after the free use of iodine, the right one was reduced to its normal size, but the left one continued to grow—very slowly at first, until it was about the size of a goose egg, which began to press on the windpipe, causing difficult breathing, and became very painful. An incision was made and a large quantity of pus discharged. The gland was removed, or as much as could with safety be taken out. For ten years I wore a little piece of cloth about an inch long in my neck to keep the place open. During this time I had to have it cut open by the doctor every time I took cold or the opening clogged. In the Spring or early Summer of 1884 I was persuaded by my wife to use S. S. S., which I did strictly in accordance with directions. I took twenty-six large bottles, and was entirely cured, for I have not suffered since that time.

B. S. RAGLAND, Royal Bag Mfg. Co., Charleston, S. C.

Only a constitutional remedy can reach an hereditary disease like Scrofula. When the blood is restored to a normal condition and the scrofulous deposits are carried off there is a gradual return to health. S. S. S. is well known as a blood purifier and tonic. It is the only guaranteed, strictly vegetable remedy sold. If you have any signs of Scrofula, write us and our physicians will advise you free.

The only wonder is that the market held up as well as it did under such a run. It shows that this is a big country and has some tremendous concerns capable of taking care of an enormous lot of livestock.

CHOKING CATARRH CURED.

Mr. Caswell Says, "Hyomei Cured Me"—Your Money Back If It Does Not Cure You.

"Use Hyomei and be cured of catarrh," is what all who have tried it for that disease say to their friends. O. S. Caswell, of North Middleboro, Mass., writes: "Hyomei has relieved me from a choking catarrhal trouble and cleared my head. I am glad to recommend it to my friends."

It is the easiest thing in the world to stop catarrh or catarrhal cold at its beginning if you use Hyomei. Just breathe the health-giving balsamic air for a few minutes and your catarrh will be cured. In the worst cases of this disease, chronic or acute, Hyomei used four or five times a day is all that is needed to soon effect a cure.

In this and neighboring towns, there are hundreds that can testify to the remarkable powers of Hyomei to cure catarrh. Many of the staunchest friends of this remedy began its use with little hope that they would be cured, but as Hatch offered to refund the money if it did not benefit, they decided to try it on that plan, and were soon restored to health.

The complete Hyomei outfit costs but \$1.00 and consists of an inhaler that can be carried in the vest pocket, a medicine dropper and a bottle of Hyomei. The inhaler lasts a lifetime, and if one bottle does not cure, an extra bottle of Hyomei can be obtained for 50 cents.
